SILO FEEDING & EXTRACTION

We at FRIGATE has full range of equipment required for efficient & trouble free Silo feeding, Storage & extraction for flat bottom as well as inverted cone silos.

Open and Closed Air Slides

We manufacture open and closed air slides that are specialised equipment supplied to cement plants for movement of cement inside the cement plant. These air slides have been designed by technocrats with complete precaution and attention to each and every specific detail.

Flow Control Gates

We are the well-recognized manufacturers of flow control gates that are used in diverse industries for various flow control operations. Specially designed and fabricated using high grade raw material, the gates are durable, provide optimum performance and require low maintenance. In conformation with various national and international standards, the gates ensure effective functionality. We also provide customized solution as per the specifications detailed by client.

Diverting Gates

We are one of the prominent manufacturers and suppliers of premium quality two way diverting gates and three way diverting gates. Used grade material and latest technology, the assortment is broadly appreciated and accepted in diverse industries for handling material efficiently. The precision engineered gates are offered with customized solution as per the demand of our clients.

Pneumatic & Manual Cut off Gates

Pneumatic cut off gates / Pneumatic shut off gates play an important role at the time of power failure. These gates are specially designed considering the different aspects of the running operation and as per the requirement; they get closed or open quickly at the time of power failure.

Lump Breaker

We are the renowned manufacturer and supplier of a wide range of Lump Breakers, used for crushing big lumps. These lump breakers are provided with a wide flanged inlet area, which is used for collecting large masses. Further, these lump breakers are provided with a single shaft along with a fix comb and evenly placed impacting fingers on its body. The shaft carries lumps, which are placed between the rotating finger and fix comb for breaking them. These broken lumps are then collected from bottom of the breaker.

Cyclic Valve for Air Distribution Systems

We are Designing and manufacturing Automatic Cycling Valves for the uniform Air Distribution for Cement Blending Silos. These Distribution Systems are easy to maintain and their performance is best in their category.

Who We Are

Frigate Teknologies is a diversified global conglomerate providing integrated services for various core sectors.

Services

1. EPC Contracts
2. Design & Engineering Services
3. Consultancy Services
4. Project Management

Industries Served

1. Cement
2. Mineral Processing
3. Energy
4. Marine
5. Steel
6. Aviation

In very simple words, we offer one-stop solution from **CONCEPT to COMMISSIONING**

Our Values – Our Vision – Our Mission Statement

Values	Vision	Mission
<p>To realize our vision and mission, we always turn to the corporate values that we hold dear. We will live and deliver these values with uncompromising commitment to safety and sustainability.</p> <p>Performance - Passion - Team Work - Agility - Reliability</p>	<p>We will deliver reliable, high-quality solutions for global infrastructure, always ensuring that integrity, safety and sustainability are at the heart of everything we do.</p>	<p>To be among the top ten EPC companies in the segments and markets we serve by 2025</p>

What sets us apart

ISO 9001 – 2008 Certification

In-House Design Setup

Compliance to International Design & Safety Norms

Compliant to International Project & Contract Management Standards
